Body Sensitivity Test

Home-to-lab

Hair sample test

Dear Cheryl,

We are delighted to present you with your **Body Sensitivity Test** results.

Your results have been created using our state of the art bioresonance testing machines and your sample has been analysed by our technician Emma.

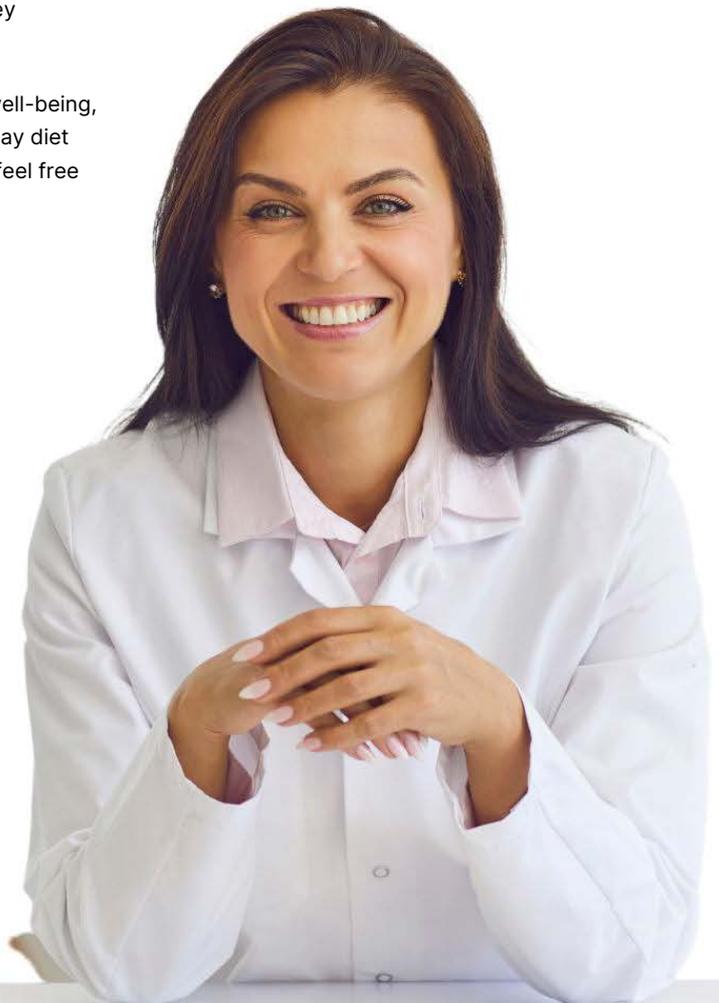

Your outcomes have been divided into sections based on the reactivity rating attributed to each item. Within each section, you will discover every item sorted into its primary testing category. We advise minimising your consumption of high reactivity items as much as possible and slowly reintroducing them one by one to gauge any potential discomfort they may cause.

We view your report as the initial step on a path towards improved well-being, empowering you to implement beneficial adjustments to your everyday diet and surroundings. Should you require additional information, please feel free to reach out to our dedicated care team.

Best of luck on your journey.

Ruby Saharan

Ruby Saharan, B.Sc., M.Sc., INHC

1,500 individual items tested across 47 categories

The most advanced body sensitivity test includes the following categories:

Food & Drink

Botanicals

Metals

Vitamins

Additives

Animals and insects

Gut Health

Digestion

Plus 5 brand new categories...

Anti-aging

We test **hyaluronic acid and collagen** to identify signs of anti-aging in skin, bones and joints.

Stress & Inflammation

We test for stress and inflammation by examining **cortisol** levels, which indicates stress and **inflammatory biomarkers** within the body.

Sleep hormones

To evaluate sleep quality, we analyse the **melatonin** hormone, responsible for the quality of sleep.

Skin health

Skin sensitivity testing evaluates how your skin reacts to **fragrances, household chemicals, and cosmetics**, assessing your skin's tolerance levels.

Nutrition

We measure nutritional levels by assessing the hormone **leptin**, known as the 'full' hormone and **ghrelin**, which is responsible for regulating hunger

Your results analysis

Every item tested is classified to one of the following three reactivity levels:

High Reactivity / Outside Range

These are the items that our testing shows you are most likely to be sensitive to or fall outside of optimal range.

These may be causing or contributing to physical symptoms. We would recommend the removal of these items from your daily diet for 6-8 weeks using a structured elimination diet, followed by a gradual reintroduction.

Moderate Reactivity

These are the items that our testing shows you may be sensitive to.

These may have the potential to cause or contribute to physical symptoms. We would always recommend prioritising the removal of the high reactivity items first and then considering the removal of moderate items for 4-6 weeks, and subsequent reintroduction.

It is also worth considering that having these items in isolation may not cause symptoms, however having a number of moderate reactivity items in the same meal or day may lead to symptoms due to an accumulative effect.

No Reactivity / Within Range

These are the items that our testing shows you do not have sensitivity to or fall within optimal range.

High Reactivity / Outside Range

Food & Drink (high reactivity)

- Dry roasted peanut
- Egg noodle
- Eggplant
- Hazelnut
- Hazelnut milk
- Peanut
- Peanut oil
- Pine nut

Non-Food (high reactivity)

- Wasp

Botanicals (high reactivity)

- Aspergillus sydowii
- Aspergillus tamarii
- Beech
- Eurotium chevalieri
- Eurotium rubrum
- Honey grass
- Linden grass
- Pasture grass
- Penicillium brevicompactum

Metals (high reactivity)

- Chromium (Cr)

Additives (high reactivity)

- E160e Beta-apo-8'-carotenal (C30)
- E170 Calcium carbonate
- E230 Biphenyl; diphenyl
- E466 Carboxy methyl cellulose
- E503 Ammonium carbonates
- E957 Thaumatin

Gut Health (out of range)

- Acidophilus Bifidus
- Bifidobacterium Bifidum
- Bifidobacterium Infantis
- Escherichia Coli
- Lactobacillus acidophilus
- Lactobacillus reuteri
- Streptococcus Faecium
- Streptococcus Thermophilus
- Streptomyces

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

High Reactivity / Outside Range

These are the items that our testing shows you are most likely to have a sensitivity to or that fall outside of range. We would recommend the removal of these items from your daily diet for 6-8 weeks, using a structured elimination diet, followed by a gradual reintroduction.

 If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

 If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Digestion (out of range)

- Amylase

Anti-Aging (out of range)

- Collagen
- Hyaluronic Acid

Stress & Inflammation (out of range)

- Joints
- Kidneys
- Stomach

Skin Health (high reactivity)

- Benzyl benzoate
- Cinnamyl alcohol
- Nicotine

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

High Reactivity / Outside Range

These are the items that our testing shows you are most likely to have a sensitivity to or that fall outside of range. We would recommend the removal of these items from your daily diet for 6-8 weeks, using a structured elimination diet, followed by a gradual reintroduction.

 If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

 If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Moderate Reactivity

Food & Drink

- Aflatoxin
- Ale
- Barley
- Beer
- Brandy
- Bread-brown
- Bread-granary
- Bread-rye
- Bread-white
- Bulgar wheat
- Butter
- Buttermilk
- Champagne
- Cheddar
- Coffee-barley substitute
- Condensed milk
- Cottage cheese
- Cream
- Duck
- Duck-domestic
- Duck-wild
- Edam
- Evaporated milk
- Farro
- Freekeh
- Goat's cheese
- Gouda
- Gruyere
- Halloumi
- Hops
- Hot chocolate
- Ice cream
- Kamut
- Kefir
- Lager
- Lamb
- Liver-lamb
- Manchego
- Milk chocolate
- Milk from cows
- Milk from goats
- Milk from sheep
- Mozzarella
- Mutton
- Noodles-wheat
- Ovaltine
- Parmesan
- Prosecco
- Red Leicester
- Red wine
- Rice milk
- Rice noodle (fermented)
- Rice noodle (fresh)
- Rice-brown
- Rice-white
- Rose wine
- Rye
- Sake
- Seitan
- Shaoxing wine
- Soft cheese
- Sour cream
- Spelt
- Stilton
- Sweetbreads
- Veal
- Vinegar-malt
- Wheat
- Wheatgrass
- White wine
- Yogurt

Botanicals

- Aspergillus ustus
- Aspergillus wentii
- Aureobasidium pullulans
- Barley grass
- Chrysanthemum
- Hop
- Juniper
- Rhodotorula

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

Moderate Reactivity

These are the food items that our testing shows you may have a sensitivity to. We would recommend the removal of these items from your daily diet for 4-6 weeks using a structured elimination diet.

If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Metals

- Caesium (Cs)

Additives

- E174 Silver
- E217 Sodium propyl p-hydroxybenzoate
- E553a Magnesium silicate
- E559 Aluminium silicate; Kaolin

Skin Health

- Anisyl alcohol
- Butyl-parahydroxybenzoate
- Lanolin
- Pesticide (molluscicides)

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

Moderate Reactivity

These are the food items that our testing shows you may have a sensitivity to. We would recommend the removal of these items from your daily diet for 4-6 weeks using a structured elimination diet.

 If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

 If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

No Reactivity / Within Range

Food & Drink (no reactivity)

- Abalone
- Allspice
- Almond oil
- Apple cider vinegar
- Apples-Gala
- Apples-Pink Lady
- Arrowroot flour
- Bacon
- Banana blossom
- Basil
- Beef-dried
- Black eyed pea
- Brazil nut
- Buckwheat
- Button mushroom
- Cannellini bean
- Capsicum-red
- Cardamom
- Cassava
- Celery
- Chestnut mushroom
- Chicken liver
- Chicory
- Cider
- Acacia Pennata
- Almond
- Amaranth
- Apple juice
- Apples-Golden Delicious
- Apricot
- Artichoke
- Balsamic vinegar
- Baobab
- Bay leaf
- Beets
- Blackberry
- Broad bean
- Buffalo
- Cabbage
- Canola oil
- Capsicum-yellow
- Carrots
- Catfish
- Cherry
- Chia seed
- Chicken-capon
- Chicory lettuce
- Cilantro
- Acai berry
- Almond flour
- Anchovy
- Apples-Braeburn
- Apples-Granny Smith
- Aquafaba
- Asparagus
- Bamboo shoots
- Barbecue sauce
- Beansprout
- Bilberry
- Blueberry
- Broccoli
- Butter lettuce
- Cajun spice
- Cantaloupe melon
- Carambola
- Cashew milk
- Cauliflower
- Chervil
- Chicken
- Chickpea
- Chinese horse radish
- Cinnamon
- Aji pepper
- Almond milk
- Aniseed
- Apples-Fuji
- Apples-Jazz
- Arrow root
- Avocado
- Banana
- Barramundi
- Beef
- Black beans
- Bortolli bean
- Brussels sprout
- Butternut squash
- Calamari
- Capsicum-green
- Caraway
- Cashew nut
- Cayenne pepper
- Chestnut
- Chicken heart
- Chickpea flour
- Chlorella
- Clams

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

No Reactivity / Within Range

These are the items that our testing shows you do not have sensitivity to or fall within optimal range.

If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Food & Drink (no reactivity)

- Clove
- Coconut
- Coconut flour
- Coconut milk
- Coconut oil
- Coconut water
- Cod
- Cod liver oil
- Coffee-black
- Cola
- Coriander
- Corn tortilla
- Cornflakes
- Crab
- Cranberry
- Cranberry juice
- Crayfish
- Cress
- Crocodile
- Cucumber
- Culantro
- Cumin
- Currants-red black
- Curry leaves
- Curry paste
- Curry powder
- Custard apple
- Cuttlefish
- Daikon
- Dark chocolate
- Date
- Dill
- Douban jiang
- Dragon Fruit
- Durian
- Edamame bean
- Eel
- Egg
- Emu
- Endive
- Escarole lettuce
- Falafel
- Fennel
- Fenugreek
- Fermented black bean
- Fermented fish (Pla ra)
- Fermented pork
- Field pea
- Fig
- Fingerroot
- Fish fingers
- Fish maw
- Fish sauce
- Five spice
- Flageolet bean
- Flaxseed
- Galangal
- Galia melon
- Garbanzo flour
- Garlic
- Gin
- Ginger
- Goat
- Goji berry
- Goose
- Gooseberry
- Gooseberry-Chinese
- Grapefruit
- Grapes-black
- Grapes-green
- Grapes-red
- Green bean
- Guava
- Haddock
- Halibut
- Hare
- Head lettuce
- Hemp milk
- Hemp seed
- Herring
- Herring-red
- Hoisin sauce
- Honeydew melon
- Horse
- Horse radish
- Houmous
- Iceberg lettuce
- Jackfruit
- John Dory
- Kaffir lime leaves
- Kale
- Kangaroo
- Kidney beans
- Kimchi
- Kiwi
- Kohl rabi
- Kombucha
- Leek
- Lemon
- Lemonade
- Lemongrass
- Lentil - beluga
- Lentil - brown
- Lentil - green
- Lentil - puy
- Lentil - red
- Lentil - yellow
- Lima bean

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

No Reactivity / Within Range

These are the items that our testing shows you do not have sensitivity to or fall within optimal range.

If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Food & Drink (no reactivity)

- Lime
- Lobster
- Macadamia nut
- Maize/corn flour
- Marmite
- Miso
- Mussels-general
- Navy bean
- Oat milk
- Olives-black
- Orange juice
- Oyster sauce
- Paprika
- Pea
- Penicillin
- Pepper-white
- Pineapple juice
- Plaice
- Polenta
- Pomelo
- Pork sausages
- Potato flour
- Pumpkin seed
- Radish
- Raspberry
- Romaine lettuce
- Liquorice
- Longan
- Mace
- Mango
- Matsutake
- Monosodium glutamate
- Mustard
- Nectarines
- Oats
- Olives-green
- Oregano
- Pak choi
- Parsley
- Peach
- Pepper-black
- Peppermint oil
- Pinto bean
- Plantain
- Pollock
- Popcorn
- Portobello mushroom
- Prawn
- Quince
- Raisin
- Rice-wild
- Rosemary
- Liver-ox
- Lovage seed
- Mackerel
- Mangosteen
- Millet
- Morning Glory
- Mustard-green
- Nutmeg
- Okra
- Onion
- Oyster
- Pandan
- Parsnips
- Pear
- Pepper-green
- Pig-intestine
- Pisco
- Plum
- Pomegranate
- Poppy seed
- Potato
- Prune
- Quinoa
- Rambutan
- Rocket
- Rum
- Liver-pig
- Lychee
- Maize/corn
- Marjoram
- Mint-fresh
- Mushroom
- Natto
- Nutrition sensitivityal yeast
- Olive oil
- Orange
- Oyster mushroom
- Papaya
- Passionfruit
- Pecan nut
- Pepper-red
- Pineapple
- Pistachio nut
- Plums-damson
- Pomegranate juice
- Pork
- Potato chips
- Pumpkin
- Rabbit
- Rapeseed oil
- Roe-deer
- Saffron

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

No Reactivity / Within Range

If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Food & Drink (no reactivity)

- Sage
- Sapodilla
- Seabass
- Shallots
- Shrimp paste
- Sole
- Soya bean
- Spirulina
- Stink bean/Bitter bean
- Sunflower seed
- Tahini
- Tea-chamomile
- Tea-marshmallow
- Tea-yerba mate
- Thyme
- Tomato juice
- Tuna
- Turnip
- Vegetable oil
- Vinegar-clear
- Water melon
- Winged bean
- Yeast
- Salmon
- Sardine
- Seaweed
- Shark
- Smoked herring - bloater
- Sorghum flour
- Soya flour
- Squid
- Strawberry
- Swede
- Tamarind
- Tea-earl grey
- Tea-oolong
- Teff flouf
- Tilapia
- Tomato ketchup
- Turkey-cock
- Vegan cheese
- Venison
- Vodka
- Watercress
- Winkles
- Zucchini
- Salt
- Sauerkraut
- Sesame oil
- Shitake mushroom
- Snake fruit
- Sourdough
- Soya milk
- Sriracha sauce
- Sumac
- Sweet Potato
- Tarragon
- Tea-green
- Tea-rooibos
- Tempeh
- Tofu
- Trout-brown
- Turkey-hen
- Vegan egg
- Vermicelli
- Walnut
- Whisky
- Yams
- Sambucca
- Scarlet runner bean
- Sesame seed
- Shrimp
- Snapper
- Soy sauce
- Spinach
- Star anise
- Sunflower oil
- Taco shells (corn)
- Tea-black
- Tea-jasmine
- Tea-white
- Tequila
- Tomato
- Trout-sea
- Turmeric
- Vegemite
- Vermouth
- Water chestnut
- Whitefish
- Yardlong bean

Non-Food (no reactivity)

- Alpha lipoic acid
- Ascorbic acid
- Aspergillus fumigatus
- Bee

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

No Reactivity / Within Range

These are the items that our testing shows you do not have sensitivity to or fall within optimal range.

If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Non-Food (no reactivity)

- Budgie (Parakeet) feathers
- Cotton
- Docosahexaenoic acid
- Dust
- Finch feather
- Formic acid
- Gerbil hair
- Hamster hair
- L-Carnitine
- Lycopene
- Mosquito
- Omega 3
- Para Aminobenzoic acid
- Pig skin
- Pyridoxine
- Rubber
- Storage mite
- Tartaric acid
- Weevil eggs
- Canary feathers
- Cow hide
- Dog dander
- Eicosapentaenoic acid
- Flavonoids
- Fox fur
- Goat hair
- Horse bot fly
- Leather
- Lycra
- Nicotinic acid
- Omega 6
- Parrot feather
- Pigeon droppings
- Rabbit hair
- Salicylic acid
- Sulforphane
- Tyrophagus Putrescentiae
- Wool
- Cat hair
- Deer skin
- Dove feathers
- Ellagic acid
- Folate
- Fungus
- Goose feathers
- Horse dander
- Lignans
- Mallic acid
- Nucleic acid
- Oxalic acid
- Penicilloyl
- Polyphenols
- Rat hair
- Saponins
- Synthetic materials
- Uric acid
- Zeaxanthin
- Chinchilla hair
- Dermatophagoides farinae (House Dust Mite)
- Duck feathers
- Ferret fur
- Folic acid
- Gallic acid
- Guinea pig hair
- Iso-flavonoids
- Lutein
- Mink skin
- Nylon
- Pantothenic acids
- Phytosterols
- Pro-anthocyanidins
- Reindeer hair
- Sheep (wool)
- Tannins
- Velvet

Botanicals (no reactivity)

- Absidia corymbifera
- Alternaria alternata
- Aspergillus niger
- Acremonium murorum
- Apple tree
- Aspergillus ochraceus
- Acremonium strictum
- Ash
- Aspergillus penicillioides
- Alder
- Aspen
- Aster

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

No Reactivity / Within Range

These are the items that our testing shows you do not have sensitivity to or fall within optimal range.

If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Botanicals (no reactivity)

- Bahia grass
- Beauveria bassiana
- Bermuda grass
- Betula verrico
- Birch
- Bistort grass
- Blue Oats grass
- Bluegrass
- Brome grass
- Buttercup
- Byssochlamys nivea
- Cladosporium herbarum
- Canary grass
- Cannabis
- Chamomile
- Cherry tree
- Chrysonilia crassa
- Chrysonilia sitophila
- Chrysosporium see
- Cladosporium herbarum
- Cladosporium sphaerospermum
- Clover
- Colonial bent grass
- Crested dog's-tail grass
- Currant bush
- Curvularia geniculata
- Dahlia
- Dandelion
- Dead nettle
- Distichlis spicata (Seesaw saltgrass)
- Dock
- Dogtooth grass
- Elder
- Elm
- Emericella nidulans
- European beech
- European lime
- Eurotium amstelodami
- Eurotium herbariorum
- False acacia
- Feather Reed grass
- Fireweed/great willow
- Fusarium culmorum
- Fusarium oxysporum
- Fusarium solani
- Goldenrod
- Hawthorn
- Hazel
- Herd's grass (Timothy)
- Hornbeam
- Horse chestnut
- Hyacinth
- Japanese cedar
- Japanese millet
- Jasmine
- Kentucky bluegrass
- Laburnum
- Lambsquarters weed
- Larch
- Lilac
- Linden tree
- Lupine
- Maize
- Mangrove
- Maple
- Marguerite
- Meadow fescue
- Meadow fox tail
- Memnoniella echinata
- Misteltoe
- Mucor rascemosus
- Mugwort grass
- Mulberry
- Narcissus
- New Belgian aster
- Oak
- Oidiodendron griseum
- Orchard grass / Cocksfoot grass
- Paecilomyces variotii
- Pear tree
- Penicillium chrysogenum
- Penicillium aurantiogriseum
- Penicillium corylophilum
- Penicillium digitatum
- Penicillium funiculosum
- Penicillium griseofulvum
- Penicillium olsonii
- Penicillium purpurogenum
- Penicillium roquefortii
- Phoma glomerata
- Phoma macrostoma
- Pigweed

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

- E310 Propyl gallate
- E311 Octyl gallate
- E312 Dodecyl gallate
- E315 Erythorbic acid
- E316 Sodium erythorbate
- E320 Butylated hydroxyanisole (BHA)
- E321 Butylated hydroxytoluene (BHT)
- E322 Lecithins
- E325 Sodium lactate
- E326 Potassium lactate
- E327 Calcium lactate
- E330 Citric acid
- E331 Sodium citrates
- E332 Potassium citrates
- E333 Calcium citrates
- E334 Tartaric acid (L- (+))
- E335 Sodium tartrates
- E336 Potassium tartrates

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

No Reactivity / Within Range

These are the items that our testing shows you do not have sensitivity to or fall within optimal range.

If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Additives (no reactivity)

- E337 Sodium potassium tartrate
- E338 Phosphoric acid
- E339 Sodium phosphates
- E340 Potassium phosphates
- E341 Calcium phosphates
- E350 Sodium malates
- E351 Potassium malate
- E352 Calcium malates
- E353 Metatartaric acid
- E354 Calcium tartrate
- E355 Adipic acid
- E356 Sodium adipate
- E357 Potassium adipate
- E363 Succinic acid
- E380 Triammonium citrate
- E385 Calcium disodium ethylene diamine tetra-acetate; calcium disodium EDTA
- E400 Alginic acid
- E401 Sodium alginate
- E402 Potassium alginate
- E403 Ammonium alginate
- E404 Calcium alginate
- E405 Propane-1,2-diol alginate
- E406 Agar
- E407 Carrageenan
- E407a Processed eucheuma seaweed
- E410 Locust bean gum; carob gum
- E412 Guar gum
- E413 Tragacanth
- E414 Acacia gum; gum arabic
- E415 Xanthan gum
- E417 Tara gum
- E418 Gellan gum
- E420 Sorbitol
- E421 Mannitol
- E422 Glycerol
- E432 Polyoxyethylene sorbitan monolaurate; Polysorbate 20
- E433 Polyoxyethylene sorbitan mono-oleate; Polysorbate 80
- E434 Polyoxyethylene sorbitan monopalmitate; Polysorbate 40
- E435 Polyoxyethylene sorbitan monostearate; Polysorbate 60
- E436 Polyoxyethylene sorbitan tristearate; Polysorbate 65
- E440 Pectins
- E442 Ammonium phosphatides
- E444 Sucrose acetate isobutyrate
- E445 Glycerol esters of wood rosins
- E450 Diphosphates
- E451 Triphosphates
- E452 Polyphosphates
- E460 Cellulose
- E461 Methyl cellulose
- E463 Hydroxypropyl cellulose
- E464 Hydroxypropyl methyl cellulose
- E465 Ethyl methyl cellulose
- E470a Sodium potassium and calcium salts of fatty Acids
- E470b Magnesium salts of fatty acids
- E471 Mono- and diglycerides of fatty acids
- E472a Acetic acid esters of mono- and diglycerides of fatty acids
- E472b Lactic acid esters of mono- and diglycerides of fatty acids
- E472c Citric acid esters of mono- and diglycerides of fatty acids
- E472d Tartaric acid esters of mono- and diglycerides of fatty acids
- E472e Mono- and diacetyltartaric acid esters of mono- and diglycerides of fatty acids

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

No Reactivity / Within Range

These are the items that our testing shows you do not have sensitivity to or fall within optimal range.

If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Additives (no reactivity)

- E472f Mixed acetic and tartaric acid esters and diglycerides of fatty acids
- E473 Sucrose esters of fatty acids
- E474 Sucroglycerides
- E475 Polyglycerol esters of fatty acids
- E476 Polyglycerol polyricinoleate
- E477 Propane-1,2-diol esters of fatty acids
- E479b Thermally oxidised soya bean oil interacted with mono and diglycerides of fatty acids
- E481 Sodium stearoyl-2-lactylate
- E482 Calcium stearoyl-2-lactylate
- E483 Stearyl tartrate
- E491 Sorbitan monostearate
- E492 Sorbitan tristearate
- E493 Sorbitan monolaurate
- E494 Sorbitan monooleate
- E495 Sorbitan monopalmitate
- E500 Sodium carbonates
- E501 Potassium carbonates
- E504 Magnesium carbonates
- E507 Hydrochloric acid
- E508 Potassium chloride
- E509 Calcium chloride
- E511 Magnesium chloride
- E512 Stannous chloride
- E513 Sulphuric acid
- E514 Sodium sulphates
- E515 Potassium sulphates
- E516 Calcium sulphate
- E517 Ammonium sulphate
- E520 Aluminium sulphate
- E521 Aluminium sodium sulphate
- E522 Aluminium potassium sulphate
- E523 Aluminium ammonium sulphate
- E524 Sodium hydroxide
- E525 Potassium hydroxide
- E526 Calcium hydroxide
- E527 Ammonium hydroxide
- E528 Magnesium hydroxide
- E529 Calcium oxide
- E530 Magnesium oxide
- E535 Sodium ferrocyanide
- E536 Potassium ferrocyanide
- E538 Calcium ferrocyanide
- E541 Sodium aluminium phosphate
- E551 Silicon dioxide
- E552 Calcium silicate
- E553b Talc
- E554 Sodium aluminium silicate
- E555 Potassium aluminium silicate
- E556 Aluminium calcium silicate
- E558 Bentonite
- E570 Fatty acids
- E574 Gluconic acid
- E575 Glucono delta-lactone
- E576 Sodium gluconate
- E577 Potassium gluconate
- E578 Calcium gluconate
- E579 Ferrous gluconate
- E585 Ferrous lactate
- E620 Glutamic acid
- E621 Monosodium glutamate
- E622 Monopotassium glutamate
- E623 Calcium diglutamate
- E624 Monoammonium glutamate
- E625 Magnesium diglutamate

WE TEST FOR SENSITIVITIES, **NOT** ALLERGIES.

No Reactivity / Within Range

These are the items that our testing shows you do not have sensitivity to or fall within optimal range.

If you have a known allergy to any particular item you have been tested for, please avoid from consuming this item entirely.

If you suspect you have an allergic reaction, we highly recommend you speak with an allergy specialist immediately.

Additives (no reactivity)

- E626 Guanylic acid
- E627 Disodium guanylate
- E628 Dipotassium guanylate
- E629 Calcium guanylate
- E630 Inosinic acid
- E631 Disodium inosinate
- E632 Dipotassium inosinate
- E633 Calcium inosinate
- E634 Calcium 5'-ribonucleotides
- E635 Disodium 5'-ribonucleotides
- E640 Glycine and its sodium salt
- E900 Dimethylpolysiloxane
- E901 Beeswax white and yellow
- E902 Candelilla wax
- E903 Carnauba wax
- E904 Shellac
- E912 Montan acid esters
- E914 Oxidised Polyethylene wax
- E927b Carbamide
- E938 Argon
- E939 Helium
- E941 Nitrogen
- E942 Nitrous oxide
- E948 Oxygen
- E950 Acesulfame K
- E951 Aspartame
- E952 Cyclamic acid and its Na and Ca salts
- E953 Isomalt
- E954 Saccharin and its Na K and Ca salts
- E959 Neohesperidine DC
- E965 Maltitol
- E966 Lactitol
- E967 Xylitol
- E999 Quillaia extract
- Gelatin
- Honey
- Molasses
- Stevia
- Sugar
- Sweet freedom
- Vanilla
- Whey protein

Gut Health (within range)

- Bacillus Coagulans

Digestion (within range)

- Enterokinase
- Lipase
- Pepsin
- Trypsin & Chymotrypsin

Stress & Inflammation (within range)

- Cortisol
- Liver
- Digestive system

Sleep (within range)

- Melatonin

Skin Health (no reactivity)

- Alpha-hydroxyacid
- Benzyl salicylate
- Chlorine
- Cobalt
- Ethyl-parahydroxybenzoate
- Fertilizer
- Geraniol
- Hydroxycitronellal
- Lilial
- Methyl-parahydroxybenzoate
- Morbicide acid
- Petrol
- Propylparaben
- Sunscreen (Titanium dioxide)
- Vaseline
- Amylcinnamyl alcohol
- Benzyl-parahydroxybenzoate
- Cinnamaldehyde
- Coconut diethanolamide
- Ethylparaben
- Formaldehyde
- Glycerol monothioglycolate
- Imidazolidinyl urea
- Linalool
- Methylidibromoglutaronitrile
- Oak moss extract
- Propane
- Quaternium-15
- Thiomersal
- d-Limonene
- Benzyl alcohol
- Bleach
- Citral
- Coumarin
- Eugenol
- Formalin
- Herbicide (glyphosate)
- Isoeugenol
- Lyral
- Methylisothiazolinone
- Oxymethylene
- Propolis
- Rosin (colophony)
- Tree moss extract
- g-Methylionone
- Benzyl cinnamate
- Butylparaben
- Citronellol
- Diesel
- Farnesol
- Fungicide (captan)
- Hexyl cinnamaldehyde
- Isothiazolinone mix
- Methyl 2-octynoate
- Methylparaben
- Paraphenylenediamine
- Propyl-parahydroxybenzoate
- Sunscreen (Oxybenzone)
- Turpentine

Nutrition (within range)

- Allium
- Bio-flavonoids
- Choline
- Creatine
- Histidine
- Isoleucine
- Anthocyanidins
- Bromelain
- Chromium
- Genistein
- Inositol
- Leptin
- Beta-carotene
- Calcium
- Citrus bio-flavonoids
- Germanium
- Iodine
- Leucine
- Betaine
- Carotenoids
- Copper
- Ghrelin
- Iron
- Lysine

Your sensitivity results guide

We firmly believe that your report, coupled with this guide, marks the beginning of a journey towards improved health and well-being.

This guide is designed to empower you, offering valuable insights for positive changes in your daily dietary choices and living environment.

Within this results guide, you will discover crucial guidance on what steps to take next. It outlines how to effectively utilise the elimination diet guide and provides a convenient food diary template to record the foods you eliminate from your diet and the corresponding symptoms you observe.

Furthermore, this guide offers comprehensive explanations about the various food types, providing a deeper understanding and analysis.

We encourage you to read this booklet in its entirety for a thorough understanding of your results and the actionable steps ahead.

We know you're busy, but...
could you leave us a review?

We get it, leaving a Trustpilot review might not be top of mind.

But for us, your feedback makes a huge difference! In just 2 minutes, you can help us improve and guide others on their health journey.

Go on, we'd love to hear your thoughts.

Ask the experts

Our health experts are here for you

With the Body Sensitivity Test, you have the opportunity to submit a question about your results to our expert advisory board.

Whether you have an enquiry about your results or seek advice on how to navigate your health journey, our board of health professionals are here to provide informed and personalised answers, ensuring you have the support you need to make informed decisions about your health & well-being.

Complete a question submission and we will connect you with our advisory board members to provide your answer.
